PROFESSIONAL SUMMARY

I am an enthusiastic and resourceful full stack developer with an academic background in Java, JavaScript, Web Design and Maintenance. The ability to create and bring my ideas instantly to life inspire me. I am a naturally curious individual who is always working on improving my technical skills.

It is my desire to join a team of talented problem solvers and contribute to finding innovative solutions to challenging tasks.

PROJECT / EXPERIENCE

CARAUDIT (2021 - developing stages)
Personal Project

Java based API designed to generate a customized checklist, based on the make and model, assisting consumers to purchase pre-owned vehicles. Repository:

github.com/mohdkhan4131/caraudit

BSASEMO (2019 - Current)
Bangladeshi Student's Association

Designed a website for Bangladeshi Student's Association at Southeast Missouri State University and its Alumni Organization.

- A responsive website compatible with most modern-day devices
- Built using HTML5, CSS3, Javascript, and Bootstrap Framework
- Website layout designed using Balsamiq
- Securing domain name, host, and e-mail services and social media setup
- Regular maintenance and updates
- https://www.bsasemo.com/
